VINAYRAJ BANGERA

Aviation Maintenance Leader | Engine Condition Trend Monitoring | Aviation Data & Predictive Maintenance

Abu Dhabi, UAE | +971 50 228 9259 | vinayraj.bangera@gmail.com | linkedin.com/in/vinayraj-bangera

PROFILE

Licensed AW139 engineer and maintenance supervisor with 15 years on helicopters, the last four in Abu Dhabi. Supervise a 90-person maintenance team across line, phase and outstation operations for a 14-aircraft fleet. FlightSafety-certified in Engine Condition Trend Monitoring. Years on the hangar floor have shown me how much value sits in aviation data, and I want to apply my engineering expertise to aviation data, predictive maintenance and digital product roles where that value can be put to best use.

CORE STRENGTHS

- **Engine health & trend monitoring:** ECTM (PT6C-67C), parameter trending, exceedance and fault diagnosis
- **Data-minded maintenance:** see the value of aviation data for safer, earlier and better-planned maintenance
- **Leadership & operations:** 90-person team, multi-base operations, spares and facilities, heavy inspections
- **Quality & compliance:** ISO internal auditor (TÜV NORD), DGCA and EASA regulatory environment

EXPERIENCE

Maintenance Supervisor (Line, Phase & Outstation), AW139 Jul 2024 – Present

Global Aerospace and Logistics, Abu Dhabi

- Supervise a 90-person maintenance team across line, phase and outstation operations for a 14-aircraft AW139 fleet.
- Run outstation bases end to end: facilities, spare parts provisioning and expanding base capability.
- Carry out regular audits and random inspections to keep bases compliant and safety standards consistent.

Aircraft Maintenance Engineer, AW139 Jan 2022 – Jul 2024

Global Aerospace and Logistics, Abu Dhabi

- Carried out phase and line maintenance on a 14-aircraft AW139 fleet with a strong focus on safety.
- Worked on more than three 4-yearly / 8,000-hour inspections and led two of them.

Licensed Aircraft Maintenance Engineer (DGCA B1.3) Apr 2012 – Jan 2022

Heligo Charters Pvt. Ltd., Mumbai

- Progressed from aircraft technician to certifying engineer over a decade of line and major maintenance.
- Certified aircraft for offshore, ferry and VIP operations, mostly at outstations, working independently away from main base.

Aircraft Apprentice Feb 2011 – Apr 2012

Raymond Ltd. Aviation Division, Mumbai: line and flight line maintenance on Eurocopter AS355N and Bell 206 L3.

LICENCES & CERTIFICATIONS

- DGCA ICAO Type II B1.3 licence, type rated AW139 (PT6C-67C)
- EASA B1.3 Basic licence
- AW139 and PT6C-67C type training, Leonardo Helicopters Training Centre, Italy
- Engine Condition Trend Monitoring, FlightSafety International
- ISO Internal Auditor, TÜV NORD

EDUCATION

B.Sc. Industrial Science, Thakur Institute of Aviation Technology 2011 – 2014

Business mathematics and statistics, quality assurance, inventory management, entrepreneurship development, manufacturing processes.

Aircraft Maintenance Engineering, Thakur Institute of Aviation Technology 2008 – 2011

Specialisation in jet engines and helicopter airframes.
